

Sec. 23-111. Termination of water or wastewater service; revocation of discharge permit.

- (a) The approving authority may suspend or terminate water and/or wastewater service when:
- (1) Materials damaging to the sewerage system or treatment processes are released by the discharger to the sewer system, causing rapid deterioration of these structures or interfering with property conveyance or treatment of wastewater;
 - (2) It is determined that the industrial discharger is delivering into the sewerage system wastes that cannot be sufficiently treated, or require treatment that is not normally provided, or are a contributing cause of the city's inability to meet applicable NPDES effluent limitations for its wastewater treatment plants; or
 - (3) The discharger has repeatedly violated this article or its permit to such an extent that compliance with this article or the permit cannot, in the judgment of the approving authority, reasonably be expected.
- (b) Violation of any of the following conditions may result in the revocation of an industrial wastewater permit:
- (1) Failure of the discharger to accurately and fully report the wastewater volume, constituents and characteristics of his discharge.
 - (2) Failure of the discharger to report significant changes in wastewater volume, constituents or characteristics.
 - (3) Refusal of reasonable access to the discharger's premises for the purpose of inspection or monitoring.
 - (4) Failure to pay any and all costs as outlined in sections 23-105 and 23-108.
 - (5) Violation of any condition of the permit or of any of the then-current regulations or discharge prohibitions.
- (c) Before any further discharge of industrial wastewater may be made by a discharger whose permit has been revoked, the discharger must apply for and be granted a reinstatement of the terminated permit or a new permit, as the approving authority may require, and pay all delinquent fees, charges and costs occasioned by the violation. Costs shall include all expenses, including general and administrative expenses, incurred by the city in revoking the permit and disconnecting the discharger from the sewerage system, and those incurred due to the violation as provided in this article. This shall be paid for by the discharger before any new permit will be issued. When all costs cannot be readily determined, the city may require and accept a deposit which it considers sufficient and which will be subject to appropriate adjustment after all costs have been determined.

(Code 1979, § 5-3010)
